NetScore FlexiCon
iPaaS for e-stores

Are you facing these challenges?

- Are you looking for a solution that connects Marketplaces & Webstores to Sync?
- Manage multiple connections with ease?
- Manually accessing/changing data from base system to other systems?
- Difficulties in managing multiple integrations?
- Loss of time and resources?

NetScore FlexiCon is the Solution!

NetScore FlexiCon is an iPaas designed to allow NetSuite users to **Configure, Manage and Monitor** connections with e-commerce marketplaces, webstores and 3PL shipping solutions. The pre-configured mapping tool is intuitive and makes it easy to establish connections with multiple systems. It takes minimal setup time and effort.
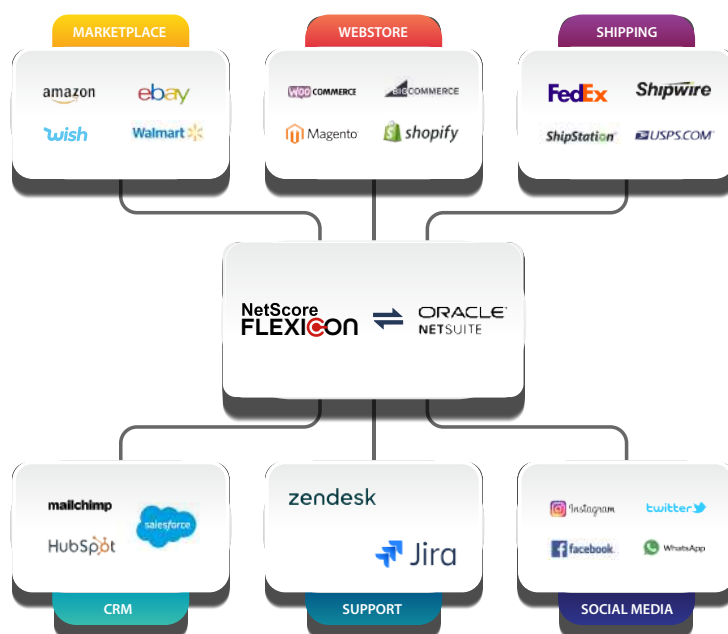

NetScore FlexiCon

Key Features

• Users can quickly map out fields they wish to connect and a scheduler allows for controlling the frequency of each items update.

• Field classifications into intuitive groups.

• Logbooks are provided to check your audit and errors.

• Integrations are implemented in real time, enabling instant monitoring and control of any process.

Differentiators

• **Centralized Command Centre:** Users are given a single application that allows you to manage and monitor your entire connector network from your Connection Command Centre.

• **Preconfigured Mapping Tool:** All mapping options are presented in the mapping tool showing you both your NetSuite and selected connector data points.

• **Self Service Data Presentation:** Generates the reusable data preparation processes that will deliver data to self-service analytics and BI tools.

Customer ROI

• NetScore FlexiCon provides a one step integration solution to integrate your multiple connections at one platform.

• Automate connections to improvise the process between NetSuite and EDI connections.

• FlexiCon provides high securable connection and high performance with simple configuration.
