

# NetScore Shopify Connector

For NetSuite

NetScore Shopify Connector for NetSuite is a fully automated, real-time integration between NetSuite and Shopify web store. The connector provides accurate product creation, real-time inventory updates, timely order fulfillment in NetSuite and status updates to Shopify. The connector provides a fast and straight forward way to integrate order, product, customer and other transactional details between NetSuite and Shopify/Shopify Plus. Connector can easily connect multiple Shopify stores.

## " Precise Connector Mapping

*We have been working with NetScore since June connecting NetSuite to our new website using the Shopify platform. Rama and Vinod have been patient and thorough with our requests. They are quick to respond and find good solutions for our complicated needs. They also trouble shoot for us on an order by order basis and always figure out what needs to be done on our end in NetSuite. We highly recommend NetScore and are very happy with their service. Thank you NetScore! "*

## Benefits

### Efficient Catalog Management

Real-time exporting of products, categories and pricing from NetSuite to Shopify/Shopify Plus.

### Accurate Tracking of Shipping Details

Updates the Shopify/Shopify Plus user orders with valid shipping and tracking details as you fulfill the orders in NetSuite.

### Automatic Inventory Sync

Automatically lowers items available in inventory based on the item purchase history and avoid inventory discrepancies between NetSuite and Shopify/Shopify Plus.

### Connect Multiple Stores

Easily connect multiple stores by using configuration records in NetSuite.

### Real-time Order and Customer Sync

Transfer orders and customers to NetSuite in real-time and identifies repeated customers in the whole system.

### Accurate Accounting

Transfer other transaction details like returns, refunds, credit memos, etc from Shopify/Shopify Plus to NetSuite and maintain accurate accounting.

## Features

### Automatically Creates/Updates Product Information

Items can be updated, so that end users can see real-time information of products, pricing and other attributes.

### Real-time Order Import and Automatic Fulfillment

Real-time order import process ensures that orders get fulfilled and shipped from the warehouse at a rapid pace.

### Real-time Updates

Focus on increasing sales with real-time updates.

- Complete automation of sales process.
- Returns and Refunds handling.
- Inbuilt error handling mechanisms.

### Real-time Inventory and Pricing Sync

Allows the users to see real-time inventory and pricing information in Shopify/Shopify Plus webstore, enabling them to make informed decisions.

### Updates the Tracking Information to Shopify/Shopify Plus

Regular update of tracking details enables the end user to be well informed about shipping order status.
