NetScore

NetScore Walmart Connector
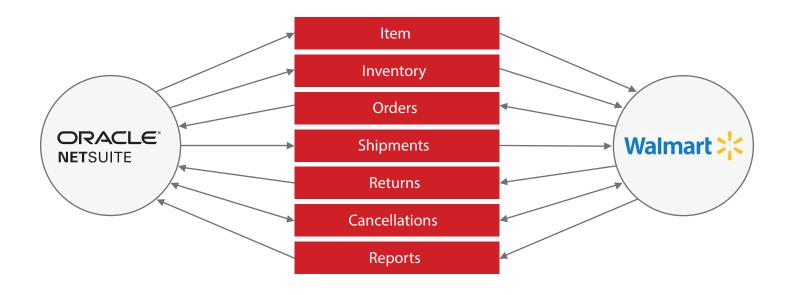

For NetSuite

Benefits

Easily Manage your Walmart Listings	Item information can be created/updated, so that the end user can see real-time information on product description, price and other attributes.
Avoid Underselling & Overselling	Provides the user with real-time Inventory levels in Walmart to improve sales.
Save Time, Effort and Overhead Costs Through Automation	Real-time order import process enables rapid fulfillment and shipping from the warehouse.
Streamline your Supply Chain and Fulfillment Process	Regular updating of tracking details assists the end user in monitoring shipping status.
Handles Returns and Cancellations in NetSuite	Provides an efficient process for receiving returned products and handling refunds in NetSuite.

Features

Reduces Error Count

Flawless integration with Netsuite reduces the error count.

Real-time Dashboard Analytics

Delivers real-time dashboard analytics for NetSuite enabling improved review of sales reports.

Real-time Inventory Synchronization

Provides real-time inventory level synchronization between NetSuite and Walmart.

Delivers Advanced Order Capabilities

Leverages advanced capabilities such as order and customer duplication, order variance reporting, order auto-acknowledgment and full inventory sync.
