NetScore

NetScore WooCommerce Connector

For NetSuite

Built for
ORACLE
NETSUITE
Hybrid SuiteApp

NetScore WooCommerce Connector for NetSuite is a fully automated, real-time integration between NetSuite and the WooCommerce webstore. The connector provides accurate product creation, real-time inventory updates, timely order fulfillment in NetSuite and status updates to WooCommerce.

The connector provides a fast and straightforward way to integrate order, product, customer and other transactional details between NetSuite and WooCommerce.

Benefits

⚙ Efficient Catalog Management

Real-time exporting of products, categories and pricing from NetSuite to WooCommerce.

🔍 Accurate Tracking of Shipping Details

Updates the WooCommerce user orders with valid shipping and tracking details as you fulfill the orders in NetSuite.

☁ Automatic Inventory Sync

Automatically lowers items available in inventory based on the item purchase history and avoid inventory discrepancies between NetSuite and WooCommerce.

⮜ Connect Multiple Stores

Easily connect multiple stores by using configuration records in NetSuite.

📄 Real-time Order and Customer Sync

Transfers orders and customers to NetSuite in real-time and identifies repeated customers in the whole system.

Features

📄 Automatically Creates/Updates Product Information

Items can be updated, so that end users can see real-time information of products, pricing and other attributes.

⚙ Real-time Order Import and Automatic Fulfillment

Real-time order import process ensures that orders get fulfilled and shipped from the warehouse at a rapid pace.

🔄 Real-time Updates

Focus on increasing sales with real-time updates.
- Complete automation of sales process.
- Returns and Refunds handling.
- Inbuilt error handling mechanisms.

🔄$ Real-time Inventory and Pricing Sync

Allows the users to see real-time inventory and pricing information in WooCommerce webstore, enabling them to make informed decisions.

☁ Updates the Tracking Information to WooCommerce

Regular update of tracking details enables the end user to be well informed about shipping order status.
